Importance: High

Hi, all –

I've been working with Jo, our admin.support, on announcing the open houses, namely via a postcard mailer to zip codes in and adjacent to the EMF site. She found a few good zip code routes to mail to, and she suggests that beyond just the mailing, posting/advertising the attached announcement in the Pocatello paper.

What do you think? Are postcards and the email message that was already sent sufficient for notification?
Do we want to run an ad in the paper as well?

Please let me know what you think. If you think having the ad is a good idea, then please review the attached announcement and give me your edits and revisions, and Jo and I can move it forward today.

Thanks – Julie

Julie,
To get this in next week, I need you and Peter to review it today, and Jeff and Hyesuk to sign off on it tomorrow.
I shortened sentences so it would read easier in the small public notice. Otherwise, everything is the same.
Jo

You're Invited Eastern Michaud Flats Community Open House

***Come learn about the ongoing work
at the Eastern Michaud Flats SF Site!***

The EPA is hosting two informal community open houses. Come and get information about current efforts to address contaminated soils and groundwater at the Simplot Don Plant and the former FMC Corporation property west of Pocatello. A number of posters will be on display to help you better understand the Superfund activities at these sites. Representatives from EPA's Superfund Program will be available to discuss the past, current and future activities at these two sites. They will also take any questions you might have regarding the status of the Superfund work.

For more information about the cleanup, please visit EPA's website for the Eastern Michaud Flats Superfund Site:
<http://yosemite.epa.gov/r10/cleanup.nsf/sites/emichaud>

We provide reasonable accommodation to people with disabilities on a case-by-case basis. For assistance, contact Julie Congdon at congdon.julie@epa.gov or by phone 206-553-2725. TDD and/or TTY users please call the Federal Relay Service at 1-800-877-8339 and give the operator Julie Congdon's phone number.
